WHAT IS THE BEST DOTERRA STARTER KIT FOR A NEW CONSULTANT?

When considering purchasing an essential oil kit, what one of the doTERRA packages are the best value for money?

If this is your first time looking at doTERRA, it is likely that you have no idea what is available to you. Also, why you should purchase a product enrollment kit in the first place.

Well, there are many reasons why you should buy a product enrollment kit and one important ones is the cost. When you buy one of the doTERRA starter kits you will pay far less than you would if you had purchased them individually. In addition, the products saving also include the enrollment fee, which is 35\$ or 20€ / £20 if you are in Europe. This means there is a saving of between 25 - 45% off the purchase price of the kit depending on what kit you purchase.

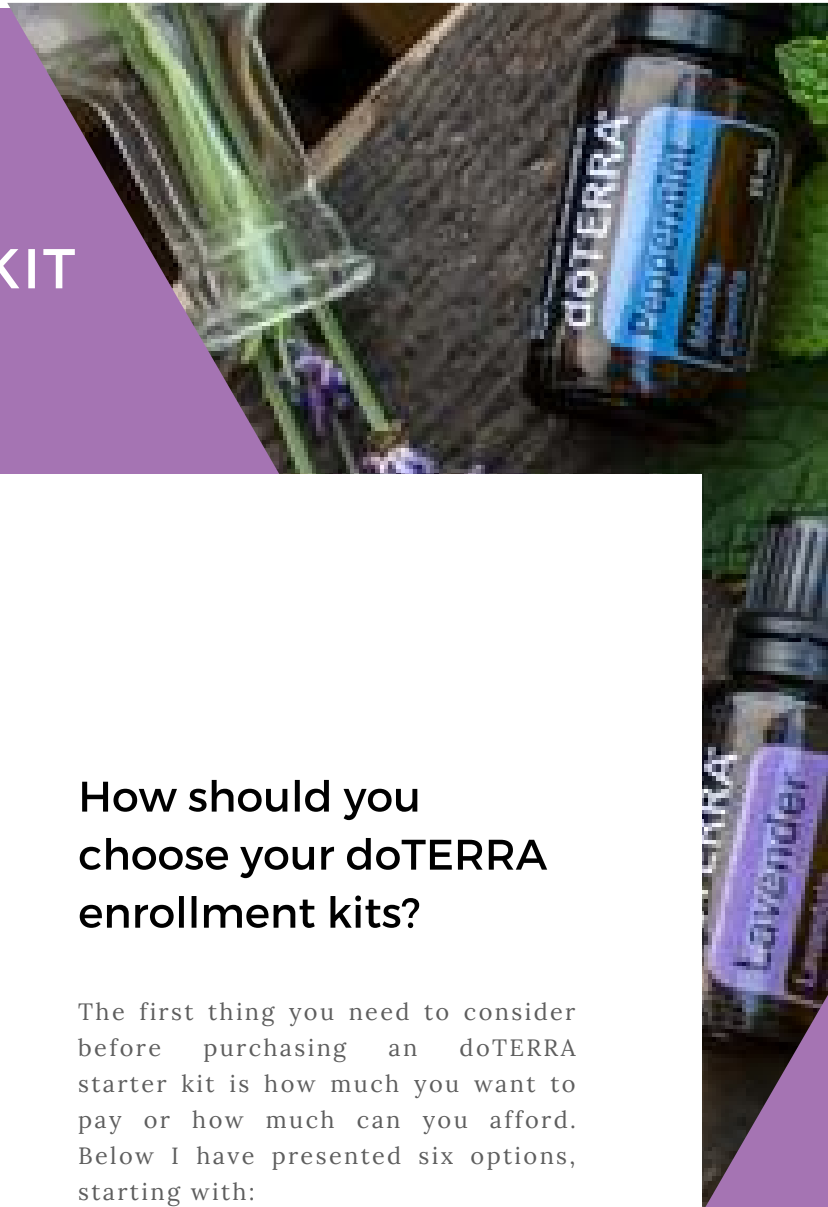

Another important reason for buying a product kit is because you will be able to get your hands on the products. Having some kind of understand of the products will help you share the essential oils. However, this does not mean you need to know everything about all the products, though I would suggest learning some basic information about three popular oils such as lemon, lavender and peppermint oil.

How should you choose your doTERRA enrollment kits?

The first thing you need to consider before purchasing an doTERRA starter kit is how much you want to pay or how much can you afford. Below I have presented six options, starting with:

- Simple Solutions Kit at \$105
- Healthy Start Kit at \$160
- Healthy Habits Kit at \$195
- Healthy Essentials Kit at \$249
- Healthy Home Kit at \$350
- Natural Solutions Kit at \$570

All the wholesale essential oil kits are great, so it really comes down to what you feel you need, want and can afford. However, for the new consultant, I think that one of the first three kits are going to be most likely option when joining doTERRA. At the same time, if you are joining to make a business of doTERRA then the Natural Solutions Kit could be a good option.

WHY ARE YOU PURCHASING ONE OF THE DOTERRA MEMBERSHIP KITS?

Asking yourself the reason why you are joining doTERRA is a great place to start. Any purchase is the same, because why do we buy anything? We buy food when we are hungry, we buy clothes to look attractive and we buy a gym membership to become fit and healthy. Our motivations are important in all the choices we make including doTERRA.

Are you intending to become a wholesale customer and get the products at wholesale?

Everybody loves a bargain and so purchasing doTERRA products at the wholesales price rather than retail is smart. In addition, once you have become a wholesale customer you qualify for the loyalty reward program (LRP). The loyalty reward program allows you to get even more savings from the products you love. The best kits for a wholesale customer is any of the first four kits such as Simple Solutions Kit, Healthy Start Kit, Healthy Habits Kit, Healthy Essentials Kit. They are affordable and offer a great selection of oils and additional products.

Even though you may enroll as a wholesale customer with no interest in the business at all. It is possible to upgrade to a wellness advocate for free at anytime. In many cases, customers become doTERRA reps once they have experience the power of the essential oils. So, never say never!!!

Are you intending to become a Wellness Advocate and start a business?

If you want to become a wellness advocate, I would suggest one of the larger kits such as the Healthy Home Kit or Natural Solutions Kit. If you have something to offer your future customers when you run classes or meet friends for coffee you will be seen as the go to person for doTERRA oils. Having a package that says, "I am a doTERRA Wellness Advocate" is a great personal branding method, but having doTERRA products available when customers want them is the key to being a successful advocate.
